ABSTRACT

News ponder is an Advanced and Informative System helping the users to know the news, articles or any interesting things happening around their Locality. This System helps the local public to keep themselves up to date about the happenings around their vicinity or locality. There are two authorizations for this system to work; one for the admin and another for the user. The user is allowed to view the news only of his city while user can add news related to any city. The user has to register into the system to use this app and can update his details as well. By this user can know all the things happening in their locality based on their location. And it will help user has an ease awareness through all the local issues.
