## ABSTRACT

Student Online Attendance Management system deals with the maintenance of the student's attendance details. It generates the attendance of the student on basis of presence in Examination Hall. It is maintained on the daily basis of their attendance. The staff will be provided with the separate username & password to make the student's status. The staffs handling the particular examination responsible to make the attendance for all students. Only if the student present on that particular Exam, the attendance will be calculated. The students attendance reports based on their presence and consolidate will be generated. The application focuses on building an efficient and user friendly Android mobile application for an Attendance Monitoring. It intends to provide an interface to the teacher who will require minimal details to input for marking of attendance of a particular examination time. The application would support strong user authentication and quick transmission of data via the web service. The application offers reliability, time savings and easy control.
