TEACHING RURAL KIDS

The system of education in rural areas has been undergoing many changes and transformations. In the present existence, there have been developments and progressions taking place in the system of education in rural areas. But still much improvements need to be made and it is not at par with the urban system of education. With developments taking place in the system of education in rural areas, the rural communities are able to recognize the significance of education and sustain their livelihoods better. There have been develop of opportunities for adults as well to enhance their educational skills and abilities. The main areas that have been taken into account in this research paper are, objectives of rural education, scenario of rural India's education sector, differentiation between urban and the rural system of education, measures to make improvements in rural education, fundamental principles of the high quality rural education program, and measures formulated by the government.
