### EMPOWERMENT OF WOMEN EDUCATION IN RURAL

Empowerment of women education in rural programme was organised on 7<sup>th</sup> July 2019 by NSS unit. The programme was inaugurated by Dr. Ramana head master said It is important to understand the present form of the conformal education system in our country where a large number of adults especially **women are unable to read and write**. They **do not find time to go to school** because of various reasons and become disadvantaged by government or private education systems. In our Indian culture generally, women manage the house business, day to day economic affairs, and control the family budget. In this sense, if they are educated they would be able to manage the home budget more efficiently which finally affects their economic growth and overall development. They can participate and contribute to raise the graph of national development.

All the 83 students, faculty members and office staff participated in the programme.
