

AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Permanently Affiliated to JNT University Kakinada,
ACCREDITED BY NAAC and Recognized under 2(f) & 12 (b) by UGC, New Delhi)

Tamaram, Makavarapalem, Narsipatnam (RD), Visakhapatnam-531113

Institutional Distinctiveness

The institution's vision, mission and quality policy are all oriented towards the holistic development of students. Some of the unique features of the institution are

- Established in 1999, it is a successful educational institution with a history of 22 years, located in a rural village in Visakhapatnam district.
- It is located on a 32-acre campus in a lush green environment surrounded by hills and ideal for scholastic pursuits. The campus as well as its surroundings are uniquely green giving a pleasant feeling.
- It is one of two colleges that serve the 15 lakh rural residents of Visakhapatnam who live in the Anakapalle parliamentary constituency and seven assembly constituencies.
- It is the only institution available to the 6 lakh tribal people living in the agency of Visakhapatnam district under the Araku parliamentary constituency, which is less than 25 km away from this college. There is no other technical institute in the region.
- Twenty buses cover a radial distance of 75 km and cover very remote villages, giving rural and tribal students, especially girls, the opportunity to study engineering and management studies. Remote tribal areas such as Chintapalli and KD Peta are also covered by our buses.
- We provide employment to rural and tribal people and almost 90% of our staff are locals.
- More than 80% of our students are consistently in good academic standing.
- Not only do we provide quality education, but we also place our students in well-paid, prestigious companies, with an annual success rate of over 40%. This is helping indirectly to change the standard of living of thousands of the rural and tribal families.

- The majority of the teaching staff have a long association with the institution and have been with it for more than five years.
- Despite the handicap of its location, more than 40% of female students are enrolled each year there by maintaining gender equity. This is possible because their safety is a priority, supervised by the CC and the university's 24-hour security system.
- The fee structure for tuition fees, transport, hostels and Mess is reasonable and affordable for middle class and low income students.
- Overall, the institution is affordable and accessible, making it the first choice for rural and tribal students in Vishakhapatnam to pursue technical education.
