POWER QUALITY ANALYSIS OF VARIOUS POWER ELECTRONIC CONVERTERS

From 2ND DEC 2019 TO 7TH DEC 2019

ORGANIZED BY

**DEPT. OF ELECTRICAL & ELECTRONICS ENGINEERING
AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY,
TAMARAM (V), MAKAVARAPALEM (M),
VISAKHAPATNAM-531113**

AVANTHI EDUCATIONAL SOCIETY

Avanthi Educational Society under the Leadership of Sri M.Srinivasa Rao garu as chairman was started in the Year 1991. Within a short span of its establishment, the group has made a remarkable stride in the field of education offering various courses at Under Graduate, Post Graduate, Pharmacy & Engineering levels. This milestone is achieved as the institution carved itself to impart quality and career oriented education, countering the challenges of the modern world through planning, dedication, determination, prompt execution and with the innovative ideas of our advisory board. Today, Avanthi Educational Society is proud to have a strength of over 16000 students with 15 institutions under its ambit. It is the path of glory towards the success during the last 19 years. The institution has been adjudged many times as the second best educational institutions in the twin cities and 16th best in all over India through the impartial survey made by the renowned magazine "India Today".

AVANTHI INSTITUTE OF ENGINEERING & TECHNOLOGY

AIET started in the year 1999 and offers various courses at Engineering and PG level. The college is providing with rooms, computer centre, laboratories and seminar hall with audio-visual equipments. Industry Institute interaction is conducted regularly to emphasize on the latest trends in the present market.

It is very near to Narsipatnam. Frequent bus facilities are available both from and to Visakhapatnam and Narsipatnam. Very safe and secure hostel facility is

available for Girl students. These are the additional facilities besides excellent academic atmosphere in the college campus.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

The department of Electrical & Electronics Engineering was established in the year 2001 along with the MECHANICAL, ECE and CSE departments. The department has an intake of 60 students. Commencing the academic year 2011, a post-graduate course in Power Electronics and 2014 in Power Systems was started. The department has full fledged laboratories, workshops and P.G. labs. The department is staffed with qualified, experienced and dedicated members who engage in research activities.. The department with active support from the management is aiming to expand its research activities and industrial consultancies.

ABOUT COURSE

This course is intended to provide tools to classify, quantify, and analyze the power quality problems and to provide practical engineering solutions to mitigate these problems. The objectives of this course are as follows.

- To understand the various power quality issues.
- To understand the concept of power and power factor in single-phase and three-phase systems supplying nonlinear loads.
- To understand the conventional compensation techniques used for power factor correction and load voltage regulation.
- To understand the active compensation techniques used for reactive power compensation, load balancing, power factor correction, and load voltage regulation.
- To understand the active filter techniques used for harmonics elimination.

CHIEF PATRON

Smt.M.Gnaneswari
President, Avanthi Educational Society

PATRON

Dr. C P V N J Mohan Rao
Principal,
Avanthi Institute Of Engineering And Technology

CHAIRMAN

Dr. T Srinivasa Rao
Head of the Department
Electrical & Electronics Engineering

COORDINATORS

Mr P Varahala Dora
Asst. Professor
Mr S Rishikesh,
Asst. Professor

- To understand the power quality improvement in SMPS, drive systems, and renewable energy systems.

TOPICS TO BE COVERED

DAY-1: Introduction Power Quality and Power Quality Analysis of Single Phase semi controlled converters

DAY-2: Power Quality Analysis of Single Phase fully controlled converters and Power Quality Analysis of Single Phase AC controllers

DAY-3: Power Quality Analysis of 3-Phase AC controllers and Power Quality Analysis of 1phase PWM AC controllers

DAY-4: Power Quality Analysis of 3phase PWM AC controllers

DAY-5: Power Quality Analysis of Selective Harmonic Elimination Technique for Single phase Inverters

DAY-6: Various power quality improvement techniques for harmonic current mitigation and reactive power compensation

For any further information Contact Mr P VARAHALA DORA, Assistant Professor, EEE, and Mr. S RISHIKESH Assistant Professor, EEE

AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Permanently Affiliated to JNT University Kakinada,

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Dt. 28th Nov, 2019

CIRCULAR

A Short term Course on *Power Quality Analysis of Various Power Electronic Converters* for all the IV Year II Semester & III Year II Semester students of Electrical & Electronics Engineering Department is scheduled from 2ND DEC 2019 to 7TH DEC 2019. All the students should attend the course without fail. For any further information Contact Course Coordinators Mr. P Varahala Dora and Mr S Rishikesh, Assistant Professor, EEE Department.

Resource person Details: 1. Dr. P. Sekhar

Associate Professor
Department of EEE
Vignan's Institute of Information Technology
Visakhapatnam

2. Dr. G. V. Nagesh Kumar

Professor

Dt: 11-12-2019

BRIEF REPORT

Department of Electrical and Electronics Engineering, Avanthi Institute of Engineering and Technology had organized a certificate course on "POWER QUALITY ANALYSIS" during 02-12-2019 to 07-12-2019

The speaker Dr. P. Sekhar, Associate Professor, Electrical and Electronics Engineering Vignan's Institute of Information Technology, Visakhapatnam, explained Advanced PQ solutions, compensator topologies, detection methods, control algorithms. He said that PWM techniques are the key driven force to achieve the goal of power quality enhancement in power grid or microgrids., and he also explained Three-Level Inverter based on VPWM for PV Application and the speaker compare different multilevel grid-connected inverter topologies for PV applications and propose a hybrid T-type inverter topology, which can reduce the harmonic content and the power loss of the converter and improve the conversion efficiency of the system.

Dr. G. V. Nagesh Kumar, Professor JNTUA explained the space vector pulse width modulation (SVPWM) method is applied for the proposed topology and the power quality analysis of selective elimination techniques for single phase inverters and various power quality improvement techniques. He also explained about single phase fully controlled converters. The students satisfied by the direct interaction with the speakers.
