Role of Committee Members

- The committee members should render a fair and impartial decision based solely on the evidence before them.
- To ensure a fair and impartial decision no member of the committee should not have a conflict of interest.
- No expert communications should occur and decisions must be based solely upon evidence introduced at the hearing.
- If any member of the committee has a potential conflict of interest, it should be disclosed at this meeting.

Conflicts of interest

A conflict of interest is a relationship to a party or particular knowledge of the grievance that would prevent a person from deciding the case solely on the basis of the evidence presented at the hearing un influenced by matters of personal interest or other factors. Committee members and the chairperson must be able to make decisions un influenced by personal interest or familiarity with the parties, witnesses, facts or situation related to the grievance. A personal interest in the grievance, i.e. one in which a member stands to gain or lose personally by the committee's decision, constitutes an automatic disqualification from service and the member should immediately withdraw from further service on the committee hearing. On the other hand, prior knowledge of some general facts or a personal collegial relationship is more than collegian, it is more likely that a decision may be affected and the person should withdraw The key question to be answered is whether the member is able to render a decision unaffected by whatever knowledge they possess or relationship they have with the party or parties. The chairperson also have the prerogative to request a member not to continue in proceedings if he/she is convinced of an apparent conflict of interest.

*No Ex Parte Communications

The committee's responsibility is to make findings of fact and resolve the grievance based solely upon the evidence presented to them at the hearing. Committee members may not gather their own evidence or speak to a party or speak is a party or other persons regarding the grievance out side of the grievance should be done at meetings at which both parties have been provided the opportunity to be present or through correspondence between the committee and any party is normally done by the chairperson with copies to all parties. If the committee believes that there is a witness who can provide information pertinent to the grievance, the chairperson may suggest to the parties that one or both call the witness to testify at the hearing in the presence of both parties or the chairperson may make those arrangements.
