## PREFACE

Each member of the faculty must become a learner before he/she becomes a teacher. It is a two-way process. To maximize the ability of faculty to teach and students to learn and to nurture a productive culture, faculty development should lie at the heart of any higher education institution. To enhance and empower the faculty in their own domain of knowledge, we, the institution, organize faculty development and training programs for both teaching and non-teaching faculty yearly.

### **FACULTY DEVELOPMENT PROGRAM- 1**

**TOPIC** : A One Week Online Faculty Development Program on "Machine Learning and its applications"  
**Date/s** : 23-10-2023 to 28-10-2023  
**Venue** : Zoom meeting, Avanathi Institute of Engineering and Technology, Makavarapalem.  
**Resource Person** : Dr. Ghanapriya Singh

#### **INTRODUCTION:**

This FDP aims to provide a comprehensive understanding of fundamental ML concepts, techniques, and their real-world applications. Through expert lectures, participants will explore key algorithms, industry use cases, and emerging trends in AI and ML. The sessions will focus on theoretical insights and research advancements.

#### **OBJECTIVES:**

1. Provide a comprehensive understanding of image processing techniques and their role in machine learning applications.
2. Explore deep learning architectures for image recognition and their practical significance in various domains.
3. Explain the working principles of CNNs and their effectiveness in solving complex image-related tasks.
4. Introduce the concepts of GANs and their potential for generating realistic synthetic images.
5. Discuss the advancements and challenges in applying neural networks for medical image analysis and real-time edge AI applications.

#### **PROGRAM SCHEDULE:**

### **FACULTY WORKSHOP- I**

**TOPIC** : A Three Day Workshop on "Financial Wellness"  
**Date/s** : 07-03-2024 to 09-03-2024  
**Venue** : Seminar Hall & Conference Hall, Avanthi Institute of Engineering and Technology, Makavarapalem.  
**Resource Person** : Dr. M.V.K.Srinivasa Rao

#### **INTRODUCTION:**

Financial wellness is essential for maintaining stability and growth in personal finances. Budgeting helps individuals track expenses and save efficiently. Smart investing allows wealth accumulation through informed financial decisions. Debt management ensures financial security and prevents unnecessary liabilities. This workshop provides key insights into these areas for long-term financial success.

#### **OBJECTIVES:**

1. To educate participants on effective budgeting techniques for better financial management.
2. To provide insights into smart investment strategies for wealth accumulation.
3. To equip attendees with knowledge on debt management and improving credit scores.
4. To encourage financial discipline and long-term financial planning for stability.

### **TRAINING PROGRAM/ WORKSHOP- 1**

**TOPIC** : A Three Day Workshop on "Financial Wellness"  
**Date/s** : 07-03-2024 to 09-03-2024  
**Venue** : Seminar Hall & Conference Hall, Avanthi Institute of Engineering and Technology, Makavarapalem.  
**Resource Person** : Dr. M.V.K.Srinivasa Rao

#### **INTRODUCTION:**

Financial wellness is essential for maintaining stability and growth in personal finances. Budgeting helps individuals track expenses and save efficiently. Smart investing allows wealth accumulation through informed financial decisions. Debt management ensures financial security and prevents unnecessary liabilities. This workshop provides key insights into these areas for long-term financial success.

#### **OBJECTIVES:**

1. To educate participants on effective budgeting techniques for better financial management.
2. To provide insights into smart investment strategies for wealth accumulation.
3. To equip attendees with knowledge on debt management and improving credit scores.
4. To encourage financial discipline and long-term financial planning for stability.

#### **PROGRAM SCHEDULE:**

S.No	Date	Time	TOPIC	Resource Person
1	07-03-2024	02:00 PM to 04:00 PM	Budgeting & Expense Management	Dr. M.V.K. Srinivasa Rao

## ONLINE FACULTY DEVELOPMENT PROGRAM (FDP) ON

### Machine Learning and its Applications

23rd OCTOBER - 28th OCTOBER 2023

Department of Computer Science Engineering  
AVANTHI INSTITUTE OF ENGINEERING & TECHNOLOGY  
(Approved by AICTE & Permanently Affiliated to JNTU-GV)  
(ISO 9001: 2015 certified, Reaccredited by NAAC with A+ grade)  
Makavarapalem – 531113, Anakapalle Dist.  
Email: [principal\\_aiet@yahoo.com](mailto:principal_aiet@yahoo.com)

#### PREAMBLE

The Avanti Institute of Engineering and Technology (AIETM) was established in 1999 with the objective of promoting social empowerment and becoming an institution of excellence in engineering education and research, and has been imparting quality education to students with the aim of bringing engineering education to the doorsteps of rural and semi-urban areas. The growth of the institution is reflected in the increase in the number of students, which currently stands at around 2459. AIETM has a magnificent permanent buildings with classrooms and laboratories. The institute is approved by AICTE and is permanently affiliated to Jawaharlal Nehru Technological University - Gurajada Vijayanagaram (JNTU-GV), Vijayanagaram and SBTET Vijayawada. The institution is accredited by NAAC with a grade of 'A+' and is recognized under sections 2(f) and 12(b) of the UGC Act, 1956. AIETM has qualified and experienced faculty in all its departments. The college is headed by Dr. C Mohan Rao a senior academician and administrator, having rich experience in Teaching and research.

#### Department of Computer science Engineering

AIETM has started Department of Computer Science and Engineering in 1999. Presently it is offering

- BTECH (Computer Science and Engg.)
- BTECH CSE (AI & ML)
- BTECH CSE (DS)
- M.TECH (CSE)

The department has experienced faculty members to motivate, encourage, inspire the student community and create a realistic atmosphere of teaching and learning in the classrooms.

#### ABOUT FDP

This FDP is devoted to address the need to enhance the knowledge about the variety of concepts in the field of Machine learning. It discusses the philosophy of ML, and how to model a new problem as an ML problem. It describes a variety of models such as Classification, Regression, Clustering, Dimensionality Reduction, Deep learning which can be used to model a new problem. The course prepares any technical person to take a variety of focused, advanced courses in various subfields of ML and is being conducted at Avanthi Institute of Engineering and Technology, Tamaram. The course will offer learning relevant to key role of ML in present scenarios and recent trends. This FDP will focus to benefit people from academic and research communities associated with future technology. The whole course is handled by academicians and industry experts.

#### NO REGISTRATION FEE

#### HOW TO APPLY

Participants are required to fill the online registration form

**RESOURCE PERSON PROFILE**

**Name:** Dr. Ghanapriya Singh  
**Designation:** Assistant Professor  
**Department:** Electronics & Communication Engg  
**Qualification:** Ph. D. (IIT Delhi), M.Tech (NSUT)  
**Address:** NIT Kurukshetra  
**Email:** ghanapriya@nitkkr.ac.in  
**Phone No:** +91 9068289740

Dr. Ghanapriya Singh is an Assistant Professor (Grade I) in the Department of Electronics and Communication Engineering at NIT Kurukshetra. She previously worked as an Assistant Professor (Grade II) at NIT Uttarakhand from 2013 to 2022. She holds a Ph.D. in Signal Processing from IIT Delhi, where she collaborated with STMicroelectronics on projects showcased at CES, USA. With five granted US patents and a European patent, her expertise spans context awareness, image processing, and speech processing. She has contributed to multiple government-funded projects, including initiatives by the Ministry of Electronics and Information Technology and the Department of Science and Technology.

Her research focuses on applying machine learning and signal processing techniques to IoT, biomedical signal processing, and speech-enabled automation. She has authored numerous papers in high-impact SCI-indexed journals and has presented her work at prestigious conferences. As a mentor, she has guided Ph.D. and M.Tech. students, with her protégés securing positions in academia and industry. Additionally, she has delivered expert lectures on AI, deep learning, and IoT at institutions like IITs, NITs, and AICTE-sponsored programs. Her contributions continue to drive advancements in smart technology and artificial intelligence applications.

**A ONE WEEK ONLINE FDP ON "MACHINE LEARNING APPLICATIONS"**

23/10/2023 to 28/10/2023

**FACULTY DEVELOPMENT PROGRAM (FDP) REPORT**

**Title:** Faculty Development Program on "Machine Learning and Applications" **Duration:** 6 Days **Organizer:** Department of Computer Science and Engineering, Avanathi Institute of Engineering and Technology **Resource Person:** Dr. Ghanapriya Singh, Assistant Professor (Grade I), Department of Electronics and Communication Engineering, NIT Kurukshetra **Venue:** Avanathi Institute of Engineering and Technology

**Day 1: Inauguration & Introduction to Machine Learning**

The FDP commenced with an inaugural session, where dignitaries from Avanathi Institute of Engineering and Technology welcomed Dr. Ghanapriya Singh and highlighted the importance of Machine Learning (ML) in modern technology. Dr. Singh provided an insightful introduction to ML, covering fundamental concepts, historical evolution, and the significance of data-driven decision-making. She also discussed various ML paradigms, including supervised, unsupervised, and reinforcement learning.

**Day 2: Data Preprocessing and Feature Engineering**

On the second day, Dr. Singh focused on data preprocessing techniques essential for building effective ML models. Topics covered included handling missing values, normalization, standardization, feature selection, and dimensionality reduction techniques such as PCA (Principal Component Analysis). Hands-on exercises were conducted using Python and libraries like Pandas, NumPy, and Scikit-learn.

**Day 3: Supervised Learning Algorithms**

The third day was dedicated to supervised learning methods, including regression and classification algorithms. Dr. Singh elaborated on linear regression, logistic regression, decision trees, random forests, support vector machines (SVM), and ensemble methods. Participants implemented these models on real-world datasets, gaining hands-on experience with model evaluation metrics like accuracy, precision, recall, and F1-score.

**Day 4: Unsupervised Learning and Clustering Techniques**

Day four covered unsupervised learning techniques such as k-means clustering, hierarchical clustering, and DBSCAN. Dr. Singh demonstrated the importance of clustering in pattern recognition and anomaly detection. Real-world applications in customer segmentation and recommendation systems were discussed along with hands-on exercises using Scikit-learn.

### Day 5: Deep Learning and Neural Networks

The fifth day introduced deep learning concepts, focusing on artificial neural networks (ANNs) and convolutional neural networks (CNNs). Dr. Singh provided an overview of deep learning frameworks such as TensorFlow and PyTorch. Participants built a simple neural network model for image classification using the MNIST dataset, gaining insights into backpropagation, activation functions, and optimization techniques.

### Day 6: Applications of Machine Learning & Valedictory Session

The final day of the FDP explored advanced applications of ML in areas like healthcare, finance, and smart automation. Dr. Singh discussed case studies on speech processing, biomedical signal analysis, and IoT-based predictive analytics. The program concluded with a valedictory session, where participants shared their experiences and received certificates. Dr. Singh encouraged further research and collaboration in ML applications.

### Conclusion

The six-day FDP provided faculty members with a comprehensive understanding of machine learning and its real-world applications. The interactive sessions, hands-on exercises, and insightful discussions enabled participants to enhance their knowledge and teaching methodologies in ML. The Department of CSE at Avanthi Institute of Engineering and Technology expressed gratitude to Dr. Ghanapriya Singh for her valuable contributions and expertise in making this FDP a success.

7. What is the main goal of linear regression in machine learning? \*

Mark only one oval.

- To classify data points into categories  
 To predict a continuous outcome variable based on one or more input features  
 To find the mode of a dataset  
 To perform clustering analysis

8. Explain the difference between simple linear regression and multiple linear regression. \*

Mark only one oval.

- Simple linear regression deals with one input variable, while multiple linear regression deals with multiple input variables.  
 Simple linear regression and multiple linear regression are the same concepts.  
 Simple linear regression deals with multiple input variables, while multiple linear regression deals with one input variable.  
 Simple linear regression and multiple linear regression are used interchangeably in machine learning.

9. What is the formula for the equation of a straight line in the context of simple linear regression? \*

Mark only one oval.

- $y = mx + c$   
  $y = x^2$   
  $y = a + bx$   
  $y = \log(x)$

10. How is the performance of a linear regression model typically evaluated? \*

Mark only one oval.

- By counting the number of input features  
 By using accuracy as a metric  
 By evaluating the mean squared error (MSE) or R-squared value  
 By measuring the size of the dataset.

20

11. What is the purpose of the coefficients in a linear regression equation? \*

Mark only one oval.

- They represent the intercept and slope of the regression line  
 They are used to calculate the mean of the dataset  
 They indicate the outliers in the data  
 They determine the color of the regression line

12. What type of machine learning problem is logistic regression used for? \*

Mark only one oval.

- Regression  
 Classification  
 Clustering  
 Dimensionality Reduction

13. In logistic regression, what is the name of the function used to transform the linear output into a probability between 0 and 1? \*

Mark only one oval.

- Sigmoid function  
 Tanh function  
 ReLU function  
 Softmax function

14. What is the cost function commonly used in logistic regression to evaluate the model's performance?

Mark only one oval.

- Mean Squared Error (MSE)  
 Cross-Entropy Loss  
 Root Mean Square Error (RMSE)  
 Mean Absolute Error (MAE)

15. Logistic regression can be used for binary classification problems. What does a binary classification problem mean?

Mark only one oval.

- It has two input variables.  
 It has two output variables.  
 It involves classifying data into two distinct categories.  
 It can only use two features for prediction.

16. What is the purpose of the threshold in logistic regression?

Mark only one oval.

- It defines the slope of the regression line.  
 It determines the learning rate of the algorithm.  
 It separates the predicted probabilities into classes.  
 It calculates the cost function value.

A THREE DAY WORKSHOP ON " FINANCIAL WELLNESS"  
07-03-2024 to 09-03-2024

REPORT

**Introduction**

The Financial Wellness Workshop was conducted to enhance the financial literacy of both teaching and non-teaching staff, equipping them with essential knowledge on budgeting, investments, and debt management. The session was led by Dr. MVK Srinivas Rao, a distinguished expert in financial management.

**Day 1: Budgeting & Expense Management**

Dr. Srinivas Rao emphasized the importance of creating a structured budget to manage personal finances effectively. He discussed techniques for tracking expenses, differentiating between needs and wants, and adopting smart saving habits. He provided practical examples of how minor adjustments in daily expenditures can lead to significant savings over time.

Participants were introduced to various budgeting techniques such as the 50/30/20 rule and zero-based budgeting. Additionally, he covered the importance of emergency funds and how to systematically build them.

Furthermore, attendees learned about the role of financial discipline in long-term financial stability. Dr. Srinivas Rao highlighted various digital tools and apps that assist in monitoring expenses and budgeting effectively. The session concluded with a hands-on activity where participants created a personal budget plan based on their income and expenses. The insights from this session enabled attendees to take control of their finances and work towards financial security.

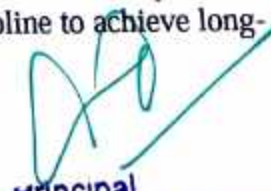

**Day 2: Smart Investing & Wealth Building**

The session covered various investment options, including stocks, mutual funds, fixed deposits, and retirement plans. The resource person provided insights into risk assessment and strategies for long-term wealth accumulation. Dr. Srinivas Rao explained the fundamentals of financial markets, different types of investment instruments, and the risk-return trade-off associated with each. He emphasized the importance of starting early and leveraging the power of compound interest to maximize wealth.

Participants were introduced to asset allocation strategies and how diversification can reduce financial risks. The session also included a comparative analysis of traditional savings accounts versus modern investment options such as index funds and ETFs. Dr. Srinivas Rao shared tips on how to identify reliable investment opportunities and avoid common financial scams.

To make the session more engaging, attendees participated in a case study where they designed an investment portfolio based on hypothetical financial goals. The session concluded with practical recommendations on setting realistic investment goals and maintaining financial discipline to achieve long-term financial security.

### Day 3: Debt Management & Credit Score Improvement

Dr. Srinivas Rao explained methods to reduce financial liabilities, avoid unnecessary debts, and improve credit scores. He highlighted the significance of responsible borrowing and timely repayments. The session covered topics such as understanding credit reports, factors affecting credit scores, and strategies to improve them over time.

Participants learned about different types of debts, including good debt versus bad debt, and ways to manage loans efficiently. Dr. Srinivas Rao provided insights into debt consolidation options and the impact of interest rates on overall financial health. He also discussed common mistakes that lead to financial distress and provided practical solutions for overcoming them.

Furthermore, attendees were given step-by-step guidance on how to build a strong credit history and maintain a high credit score. The session concluded with interactive problem-solving activities where participants devised personalized debt repayment plans. This session empowered attendees with actionable strategies to achieve financial freedom and reduce financial stress.

#### Interactive Session

The workshop included a Q&A session, where participants engaged with Dr. Srinivas Rao to clarify doubts and discuss real-life financial scenarios. The interactive nature of the session encouraged active participation and practical learning.

#### Conclusion

The workshop was highly informative and beneficial to all attendees. Participants gained valuable insights into managing personal finances efficiently, making informed investment decisions, and maintaining financial stability. The session concluded with a vote of thanks to Dr. MVK Srinivas Rao for his expertise and valuable guidance.
