

AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Permanently Affiliated to JNT University Kakinada,

ACCREDITED BY NAAC and Recognized under 2(f) & 12 (b) by UGC, New Delhi)

Tamaram, Makavarapalem, Narsipatnam (RD), Visakhapatnam-531113

7.2.1 BEST PRACTICES

Title of the practice: Promoting rural students to opt technical/ professional education.

Vision: To see more number of engineers from rural areas.

Practice:

visiting surrounding schools, junior colleges in the vicinity of 75 Kms and addressing the Xth, and Intermediate students and emphasising the importance of higher education in general and professional education in particular.

Being a rural based engineering college we have observed that, very few people from surrounding areas are coming forward to opt technical/ professional education after completion of Intermediate. Most of the students especially girls are quitting studies after Intermediate and becoming idle.

Observing this fact, we have started a campaign among the school and college students to continue education after Intermediate. Our faculty visit the school/college and explains the career options available for them after Xth and Intermediate. They also educate them on different government schemes available for promoting higher education for the poor. Interested Students are guided to opt for courses / programs of their interest. This is enhancing the enrolment ratio for technical education from our surrounding areas.

Title of the Practice : Yoga and Meditation Programmes

Vision : Yoga Asanas and Meditation Practice helps the students to lead a stress free environment

Practice :

- Educate the students about importance of Yoga and Meditation.
- Sessions are conducted under the expert Yoga and Meditation Trainers.
- Identify slow learners and conduct special yoga sessions to improve remembrance skills.
