It is very near to Narsipatnam. Frequent bus facilities are available both from and to Visakhapatnam and Narsipatnam. Very safe and secure hostel facility is available for Girl students. These are the additional facilities besides excellent academic atmosphere in the college campus.

ABOUT SEMINAR

A startup incubator is a collaborative program designed to help new startups succeed. Incubators help entrepreneurs solve some of the problems commonly associated with running a startup by providing workspace, seed funding, mentoring, and training. The sole purpose of a startup incubator is to help entrepreneurs grow their business.

Startup incubators are usually non-profit organizations, which are usually run by both public and private entities. Incubators are often associated with universities, and some business schools allow their students and alumni to take part in these programs. There are several other incubators, however, that are formed by governments, civic groups, startup organizations or successful entrepreneurs.

While most of the media emphasis focuses on tech startups, incubators aren't just limited to one industry. In fact, the focus of incubators varies by region.
