

Industry Integrated Courses

AIETM offers several programs and initiatives with strong industry integration, emphasizing sustained collaboration with industry partners to enhance student employability and practical competence. The institution incorporates industry interaction into its academic framework through multiple structured approaches. The B.Tech curriculum includes mandatory internships, providing students with hands-on learning and real-world exposure integrated with coursework. AIETM has established Industry Connect Programs and has signed Memorandums of Understanding (MoUs) with reputed companies to facilitate training programs, expert lectures, workshops, internships, and collaborative activities.

To further strengthen skill development, AIETM houses dedicated Skill Development Centers and Centres of Excellence in collaboration with industry partners, including the APSSDC-CM Skill Excellence Centre and EDU Skills. Additionally, the curriculum offers job-oriented and skill-based elective courses, enabling students to acquire industry-relevant competencies aligned with current technological trends. Detailed information regarding the curriculum and industry-integrated courses is made available on the respective department pages of the official AIETM website.
