ON*

## ***MICROCONTROLLER PROGRAMMING***

*From 7<sup>th</sup> August 2023 to 11<sup>th</sup> August 2023*

**ORGANIZED BY**

**DEPT. OF ELECTRONICS & COMMUNICATION ENGINEERING  
AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY,  
MAKAVARAPALEM (V), VISAKHAPATNAM-531113**

## **AVANTHI EDUCATIONAL SOCIETY**

Avanthi Educational Society under the Leadership of Sri M. Srinivasa Rao garu as chairman was started in the Year 1991. Within a short span of its establishment, the group has made a remarkable stride in the field of education offering various courses at Under Graduate, Post Graduate, Pharmacy & Engineering levels. This milestone is achieved as the institution carved itself to impart quality and career oriented education, countering the challenges of the modern world through planning, dedication, determination, prompt execution and with the innovative ideas of our advisory board.

Today, Avanthi Educational Society is proud to have a strength of over 16000 students with 15 institutions under its ambit. It is the path of glory towards the success during the last 25 years. The institution has been adjudged many times as the second best educational institutions in the twin cities and 16th best in all over India through the impartial survey made by the renowned magazine "India Today".

## **AVANTHI INSTITUTE OF ENGINEERING & TECHNOLOGY**

AIET started in the year 1999 and offers various courses at Engineering and PG level. The college is providing with rooms, computer centre, laboratories and seminar hall with audio-visual equipments. Industry Institute interaction is conducted regularly to emphasize on the latest trends in the present market.

It is very near to Narsipatnam. Frequent bus facilities are available both from and to Visakhapatnam and Narsipatnam. Very safe and secure hostel facility is available for Girl students. These are the additional facilities besides excellent academic atmosphere in the college campus.

## **DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING**

The ECE Department was establishment in the year 1999 with an intake of 60 students and this was increased to 120 students in the 2007 and increased to 180 students in the 2012. The department has an eminent faculty and well supported infrastructure and laboratories the faculty keeps abreast with the latest advances in technology and ensures that hardware equipment and related software are upgraded to ensure its students are able to keep pace with current trends in technology and the industry.

The department also offers a Post – Graduation courses in DECS and VLSI Design. The students are encouraged to participate in workshops, industrial internship, industrial visits and seminars along with the projects assigned during the course, these enable them to broaden their outlook and build in professionalism that makes their transition from college to industry smoother after graduation.

### **CHIEF PATRON**

Sri. M. Srinivasa Rao  
Chairman, Avanthi Educational Society  
Andhra University

### **PATRON**

Dr. C P V N J Mohan Rao  
Principal,  
Avanthi Institute Of Engineering And Technology

### **CHAIRMAN**

Dr E Govinda  
Head of the Department  
Electronics & Communication Engineering

### **COORDINATOR**

Mr K V S Ganesh  
Assistant Professor  
Electronics & Communication Engineering

## **ABOUT WORKSHOP**

Introduction to microcontrollers, Assembly programming, I/O programming, addressing modes, I/O programming, Addressing modes, Arithmetic and logic instructions, Data types, Serial port communication, External hardware interrupts. A microcontroller programming workshop is an educational event or series of classes designed to teach participants how to program and work with microcontrollers. These workshops are hands-on and often provide practical experiences by working on small projects that involve programming a microcontroller to interact with sensors, actuators, and other hardware.

## **TOPICS TO BE COVERED**

Introduction to microcontrollers, Assembly programming, I/O programming, addressing modes, I/O programming, Addressing modes, Arithmetic and logic instructions, Data types, Serial port communication, External hardware interrupts.

For Registration please contact Mr. K V S Ganesh, Assistant Professor, ECE department.

## AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Permanently Affiliated to JNTU Gurajada, Vizianagaram.  
ACCREDITED BY NAAC and Recognized under 2(f) & 12 (b) by UGC, New Delhi)  
Tamaram, Makavarapalem, Narsipatnam (RD), Visakhapatnam-531113

DEPARTMENT OF ELECTRONICS & COMUNICATION ENGINEERING

### CIRCULAR

Date: 03 08 2023

This is informed to all the III B.Tech ECE students that our department is planning to conduct five days course on "MICROCONTROLLER PROGRAMMING" scheduled on 7<sup>TH</sup> Aug 2023. It is directed to all the students of III ECE to utilize this opportunity to enhance your technical skills. For more details about registration process and participation contact Course Coordinator Mr. K V S Ganesh, Assistant Professor, ECE.

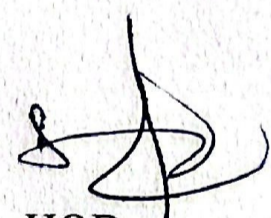

#### RESOURCE PERSON:

Dr. R Manoj Kumar  
Professor,  
Department of ECE,  
V I E W – Visakhapatnam.

Dr B Siva Prasad  
Professor  
NSRIT – Visakapatnam.

## DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

A five-day workshop on

### Advancements in Microcontroller Programming

7<sup>th</sup> August to 11<sup>th</sup> August 2023

#### **About this Workshop**

Introduction to microcontrollers, Assembly programming, I/O programming, addressing modes, I/O programming, Addressing modes, Arithmetic and logic instructions, Data types, Serial port communication, External hardware interrupts. A microcontroller programming workshop is an educational event or series of classes designed to teach participants how to program and work with microcontrollers. These workshops are hands-on and often provide practical experiences by working on small projects that involve programming a microcontroller to interact with sensors, actuators, and other hardware.

#### **Syllabus of the Workshop:**

##### Chapter-1

- Introduction to microcontrollers and their applications.

##### Chapter-2

- Basic programming concepts (C/C++ syntax, variables, loops, conditions).

##### Chapter-3

- Reading sensors (e.g., temperature sensor, light sensor).

##### Chapter-4

- Using interrupts and timers for precise control.

##### Chapter-5

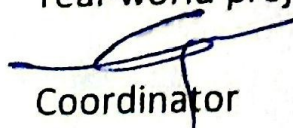

- Introduction to communication protocols: SPI and I2C.

##### Chapter-6

- Advanced topics like wireless communication (Bluetooth, WiFi, or RF modules).

#### **EXPECTED OUTCOMES**

- The outcomes of a microcontroller programming workshop typically reflect the skills and knowledge gained by participants throughout the course.
- By the end of such a workshop, participants should be able to confidently apply their learning to real-world projects and continue advancing their embedded systems knowledge.

## DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

### Program Schedule

#### **Session-1 (07/08/2023)**

9.00 AM to 11.00 AM - Introduction to microcontrollers and their applications.

11.00 AM to 11.15 AM – Tea Break

11.15 AM to 1.15 PM - Setting up the development environment (Arduino IDE, STM32CubeIDE).

1.15 PM to 2.15 PM – Lunch Break

2.15 PM to 4.15 PM - Basic programming concepts (C/C++ syntax, variables, loops, conditions).

#### **Session-2 (08/08/2023)**

9.00 AM to 11.00 AM - First program: Blinking an LED. (Hands on Training)

11.00 AM to 11.15 AM – Tea Break

11.15 AM to 1.15 PM - Reading sensors (e.g., temperature sensor, light sensor).

1.15 PM to 2.15 PM – Lunch Break

2.15 PM to 4.15 PM - Displaying data on an LCD or LED display. (Hands on Training)

#### **Session-3 (09/08/2023)**

9.00 AM to 11.00 AM - Using interrupts and timers for precise control.

11.00 AM to 11.15 AM – Tea Break

11.15 AM to 1.15 PM - Hands-on project: Create a temperature logging system. (Hands on Training)

1.15 PM to 2.15 PM – Lunch Break

2.15 PM to 4.15 PM – Troubleshooting tips and debugging.

#### **Session-4 (10/08/2023)**

9.00 AM to 11.00 AM – Introduction to communication protocols: SPI and I2C.

11.00 AM to 11.15 AM – Tea Break

11.15 AM to 1.15 PM - Controlling motors and servos (using PWM for motor speed control).

1.15 PM to 2.15 PM – Lunch Break

2.15 PM to 4.15 PM - Hands-on project: Build a simple project. (Hands on Training)

#### **Session-5 (11/08/2023)**

9.00 AM to 11.00 AM - Advanced topics like wireless communication (Bluetooth, WiFi, or RF modules).

11.00 AM to 11.15 AM – Tea Break

11.15 AM to 1.15 PM - Low power operation and power-saving techniques.

1.15 PM to 2.15 PM – Lunch Break

2.15 PM to 4.15 PM - Valediction/Feedback Session.

## BRIEF REPORT

Department of Electronics & Communication Engineering, Avanthi Institute of Engineering and Technology had organized a certificate course on "Microcontroller Programming" during from 7<sup>th</sup> Aug 2023 to 11<sup>th</sup> Aug 2023.

Microcontroller programming involves writing code to control and interact with microcontrollers—small, integrated computer systems embedded in various devices. These systems are the backbone of modern electronics, powering everything from home appliances and automotive systems to medical devices and industrial machines. Microcontroller programming enables the development of embedded systems that can process data, control devices, and communicate with other systems.

Dr. R Manoj Kumar deliver speech about Microcontroller programming involves writing software that runs on microcontroller units (MCUs) to control and manage specific tasks in embedded systems. Microcontrollers are small, low-cost computers with integrated processors, memory, and peripherals, designed to perform dedicated functions in electronic devices. Programming a microcontroller typically requires a combination of hardware knowledge, programming skills, and an understanding of embedded systems architecture.

Dr B Siva Prasad, deliver about Microcontroller programming is a vital skill for developing embedded systems and is fundamental to modern electronics. By writing code that interfaces with hardware components, microcontrollers enable efficient and cost-effective solutions for a wide range of industries. As the complexity of applications increases, effective microcontroller programming will continue to be crucial for driving innovation in consumer, industrial, and automotive technologies.
